CHANGES IN SECURITY

We are writing to make you aware of rumors circulating concerning the possible new changes in Security in Leisure World. We have heard that the sergeants will no longer be able to carry guns. This is a concern because we feel part of our protection is being removed and they are also being put at risk. We also hear there is a possibility the Sergeants will no longer wear uniforms and the Captain's position may be eliminated.

Since the new squad cars no longer have the bar lights on top and are hard to distinguish from any other white car at a distance, why are we trying to hide the fact we live in a secure community?

The majority of us moved here because of the obvious presence of security. The decision makers in management, who do not live here, may not understand the importance of a visible security force in our community. We feel that property values will not be maintained without the showing of a strong security force and our peace of mind and secure feelings are being threatened.

It's time those living in this community be aware of the possible changes and let your voices be heard regarding your wishes. Please call your board members or Milt Johns, 597-4261 and let your feelings be known. Only through our combined effort will we be able to keep our security force strong and visible.
