PCM. **UNLESS !!**

4. Residents Voice wants to limit Assessment increases.
5. Who knows? Only people with open minds, unlike the current United Board or majority of board candidates.
6. Pam is only too willing to share her reasons, many of which are the stories of elderly seniors who cannot afford the continuing rate of increase in assessments.

It would certainly behoove the author of the flier to "Learn What The Voice is Doing" and then see who is destroying LWV. Come to our meetings and hear for yourself the concerns of hundreds of people.

Of course, it's a lot easier to keep your heads in the sand and "go with the flow." Could the author of the flier be the same United ex-director/candidate who said, "If you can't afford the assessment increases, "MOVE OUT?"

How does that reduce our assessments?

Email from Mr. Harry Curtis

The following email was sent by Mr. Harry Curtis, former Third Mutual and GRF Director, and, the current president of the Garden Villa Association. **It is imperative that owners and Directors understand the priorities of someone as influential as Mr. Curtis. Read and you will understand;**

"By now you have probably received the elaborate set of fliers with multiple inserts. You have also received fliers from a group calling itself 'Positive Solutions'. Since you were a party to the selection of recommended candidates for the Garden Villa Association flier, I don't have to remind you how you came to select the candidates you selected.

However I believe that you should be aware of the reasons for the other two sets of candidates' fliers.

"Positive Solutions" was created by a group of residents, including a majority of present Third Mutual directors who are seriously interested in preserving and maintaining the lifestyle which we have enjoyed for many years. They are very concerned that a concerted effort by a dissident group, which had clearly demonstrated that its mission is to destroy our present way of life which includes getting rid of PCM, GRF, our law firm, etc., etc. will create a majority of Third Mutual Directors who will do their bidding to accomplish these ends.

Regarding the elaborate set of fliers mentioned above, I think that you should know that the Resident Voicers have created, paid for, and delivered these sets of fliers to the entire community, yet they contain not a single reference to their origin, or to the real reason for which they have gone to all this expense and effort.

It is not my intention to sway you and our three story building residents as to how to vote, every one has a right to his/her own opinion.

But I believe that you, and through you, our GVA community has a right to know the true facts on this matter, before marking their ballot.

Harry"

Response to Mr. Harry Curtis

Your letter shows that you are either woefully uninformed, or comfortable telling lies. This is illustrated by your statement,
