

(Continued from page 4)

"Thank you for not listening to the residents!"

This is the situation: Director James Bragg resigned his position on the board. The next highest vote getter was, Ernestine Hewitt.

My question is this! Why isn't Ernestine Hewitt, the new director for the Third Mutual Board?

Denise Welch, Barbara Marsh, Alan Cohen, where is your outrage now? Where are your angry accusations of a polarized board, and why your vote is being discounted, by not electing the person the people voted for, and ignoring the will of the voting residents?

Ernestine Hewitt is the person the residents voted for! Ernestine Hewitt was the next highest vote getter! Ernestine Hewitt should be the new director elected to the Third Mutual Board, she is the person the residents voted for. She should have been the person elected to the board because she was voted on by the residents.

I will use your words to express some thoughts! The majority on the Third Mutual board and it's supporters elected a candidate to "push it over to their side," you discounted the residents votes, you have ignored the will of the people. You are a Big Disappointment! Thank you for not listening to the residents!

The "Double Standard" is alive and well, thanks to all of you!

Pamela Grundke

Broadband Decision

**Dear Ms. McArthur,
It both saddens and angers me after reading in today's Globe how your committee reached the decision to NOT broadcast all of the Angel games**

this year. Apparently, 5 people have decided what the residents of this community will, or should I say "will not" watch on TV. Furthermore, one of those 5, Isabelle Muennichow stated that she doesn't watch televised sports anyway, so I guess her reasoning is that the rest of us should give up our pleasure. I did not attend your meeting as I knew it would not make any difference. As usual, residents are listened to and then GRF does as they please anyway.

It is my hope that GRF will reconsider this decision and allow many residents of this community to enjoy some pleasures they have looked forward to all winter. I wonder how the folks living outside this community view the fact that their TV viewing would be censored by a small committee should they consider moving here someday. Yes, we are being squeezed by Fox, but they are a profit making corporation. I'm sure if you looked, you could have found the money to broadcast those games. You seem to find the money to do many foolish things in our community and our assessment contributions to GRF continue to rise. My thanks to Mr. Dalis for using some common sense and to the rest of you.....SHAME ON YOU!

**All Directors and Members
Golden Rain Foundation
Third Laguna Hills Mutual
United Laguna Hills Mutual**

Recent find of Original Documents were mailed to each President (GRF, Third Laguna Hills Mutual and United Laguna Hills Mutual), together with information sheets from Original Trust and amendment to the Trust dated Jan. 9, 1969. These documents stated how and why Ross Cortese, the developer of Leisure World Laguna Hills, changed
