

(Continued from page 2)

experience as a guide. Were we assuming that our auditor would identify such an expense as the hidden "\$5.2 million Incentive Bonus" given to PCM Staff? Were we assuming that our auditor would alert us to any "profit" that our Broadband was accruing as a Non-profit Corporation?

How do we prevent a "Bernie Madoff" experience from happening to us? An INDEPENDENT AUDIT!

The Grave Dancers

The directors of this present United Board have the dubious distinction of bringing cold heartless disrespect to an unparalleled level seldom witnessed. The rancor in which a perceived enemy is treated stretches the boundaries of human dignity.

In the 2008 United election, Mike Curtis was elected by the largest majority of votes ever, and yet this board decided to ban him from all executive sessions, and exile him into "solitary confinement" for the remainder of his days. The charges lodged against Mike were that he passed out confidential information. The charges Mike was accused of are the very same charges the United board is guilty of, "Passing out Confidential GRF Information."

Mike Curtis passed away before the United board held it's monthly meeting on April 12. At that meeting President Gail McNulty decreed a moment of silence at the beginning of the meeting, but not one mention of Mike Curtis was made at this appropriate time.

Pres. McNulty added insult, hypocrisy and injury when asked why there was no mention of Mike's passing at the beginning of the meeting and she said, "She forgot!" She did mention Mike at the end of the meeting after a number of residents brought this to her attention and many residents had already left the meeting.

He's gone, stop dancing on his grave!!

The Quitters Club

Webster defines **QUIT**, as follows; 1) To depart from; leave 2) To leave the company of: quit the gathering 3) To give up, relinquish 4) To abandon, put aside, forsake 5) To cease or discontinue.

The 2009 "**Summer of Recall**," was inglorious for the directors of the United board. It was amazing, as events unfurled, in the thick of battle how many former United directors were called out in criticism and scrutiny whether they were involved in this particular event or not. One particular (former) United director was especially vocal in his castigation.

Allow me to set the stage. A Channel Six broadcast on a summer afternoon with Trumpets Blowing in announcement of the event that is about to descend upon us. Prepared speech in hand, no nonsense attitude, a self righteous, "How dare you entertain a recall! ..." the proclamation begins, did I forget to mention this former director was a "No On Recall," devotee.

The director begins by dismissing anything or anyone that supports the recall, as destroyers of the community peace, deliberately attempting to undermine the goals and important business of the United board, liars, people responsible for costing United Mutual hundreds of thousands of dollars in addition to maligning the integrity of these four directors. He went on to say that some former directors should not be given any validity since they were "Quitters." He called them out by name and finished by saying, "They quit." He never asked these particular individuals if perhaps they had a valid reason to Quit, because communicating with former directors or anyone with opinions or views opposite his is unthinkable!

This particular (former) United Director that was so harsh in his judgment of former directors, Grundke, Sydow, Todd, Parker, and Margason for quitting before their tenure was completed, **quit** and now finds himself in the company of these very people that he found so flawed. **Welcome to the "Quitters" club, Marv Rosenhaft!**
