Open Letter to the United Mutual Board

I address this board today with my head hung in shame to think that I was a part of the voting community that selected a majority of the board that would stoop to the level that we are seeing over the past months. History supports the consequences that the desire for power will overcome reasonableness, passion, logic and common sense. Most of the dictators that our generation has lived with, know that Laws, Rules and Regulations can be interpreted to restrict and denigrate those who are not in power.

Regardless of the fact that the Laws, Rules and Regulations were created to impose JUSTICE, rulers with unscrupulous objectives have used them for their own pleasure and satisfaction. Those who were supposedly protected by these laws, end up being the recipients of limitation, harassment and denigration.

Just asking what the United Board has in mind by restricting the rightful communication of the residents of Laguna Woods Village, leaves one with a hollow answer.

Instead of the United Board asking why people are so emotional about the Board's actions, their only objective seems to be to suppress a right that our forefathers considered one of the highest of priorities, "The Freedom of Speech."

In addition, seeing the specific harassment of the widow of Mike Curtis is an INJUS-

TICE of the first magnitude and is beyond the scope of understanding of any reasonable man.

It would behoove the Board to reduce the negative comments by the residents by resolving some of the problems that has them so emotional. Perhaps that would serve all the people of Laguna Woods Village in a positive manner instead of expanding the hostility.

Rather than looking outward for recrimination, it might do this board some good to look inward for some JUSTICE.
