THE DENIERS !

When you stick your head in the sand, you become a *denier* of what is happening in the world around you. When Credit Card use was questioned in 2006-2007, there were Directors and Residents who said, "So what! We trust PCM." However, when the credit card statements were printed out and made public, many eyes were opened and people questioned the statement by **Milt Johns** that the, "**Cards were for Emergency Use Only.**"

Except for the DENIERS!

Then in 2006 an "**Incentive Bonus**" plan using assessment money to pay **PCM staff** 10 years of unauthorized bonuses was discovered. This secret plan was implemented and distributed by PCM and the Boards and Residents were unaware of it. When it was made public, many eyes were opened and people were angry at how such unauthorized hidden expenses could be charged to the residents.

Except for the DENIERS!

After becoming public knowledge, PCM terminated the Incentive Bonus Plan in 2008. Assurance was given that there were no further hidden bonus plans and everything was out in the open.

Now a report is available that gave payments for a "**GRF Discretionary Bonus**" for the years 2006-2010. Again eyes were opened and residents have **no trust in PCM or GRF.**

Except for the DENIERS!

How many times can we listen to groups like Positive Solutions, Friends of the Village and many of the newly elected Board Members who continually;

DENY! DENY! DENY!

When RV asked the Friends of the Village to help verify the existence of the GRF Discretionary Bonus Payments, the paraphrased response was, "**Don't ask the Friends of the Village for help. You're on your own.**" It appears that they don't want to find anything wrong now after all these years with their heads in the sand.
