Third's Lawsuit

The suit was settled in a mutually agreed upon set of conditions and monetary award from PCM. The money which appeared in Third's account and was publicly noted at a finance committee meeting in July was in excess of \$300,000. Despite the overblown comments that the suit cost millions coming again and again from the delusionary quarter, the legal bills were well covered in the settlement. Hopefully we can end further protracted discussion by moving on and employing (with slight modifications) an Israeli holiday dinner pronouncement, "They tried to kill us, we won, let's eat."

Holiday Dinner

Speaking of holidays, once again most Directors are gathering to celebrate the season at a lavish holiday dinner on

Dec. 19th for which residents foot the bill... again without their knowledge or vote of approval. We believe Directors deserve our thanks for the yearlong work they put in and many of us are planning to dine out and drink a toast to them...but we are dining on our own dime. To let them know we appreciate their efforts it would be nice that all who dine will sign a thank you card and send it to them c/o Lloyd Foster, GRF President. If you would like to participate in a Dine on Our Own Dime dinner, just gather some friends and go for it!
